

We are the market leader for depositing equipment in Europe. Our customers in the food-processing industry benefit from unique products, our know-how and an outstanding service. As a family-run business the hallmarks for cooperation with our customers, partners, employees and suppliers are fairness, trust and respect.

Become part of the European UNIFILLER family

To strengthen our team in the European region we are searching for a

Technical Applications Manager (m/f/d)

Your tasks

- Installation of Unifiller systems & production lines in the bakery / food industry and training of customers within Europe
- Support with production tests and customer visits in the Unifiller Technology Center in Lörrach
- Technical customer service and support (telephone, email, video call, on site)
- Support of our European trade partners with customer visits and installations

Your qualifications

- Professional experience in comparable position and knowledge in the bakery or food industry
- Technical understanding and knowledge of plant technology
- High customer- and service orientation and good communication skills in English and German
- Self-employed and reliable way of working, personal initiative and team spirit

We offer a diverse area of responsibility in an innovative and dynamic family company.

We support your perspective of personal development through our open and supportive company culture. Are you interested in this exciting task?

We look forward to receiving your application documents by email to Mr. Tobias Hornsteiner (tobiash@unifiller-europe.com).

In addition, we would be happy to answer all questions you may have, just call +49 7621 583 6312.
